Parents Sue WV to Stop Vouchers

The pushback against vouchers is spreading. Citizens are awakening to the harm their public officials are causing public school children. A challenge to the West Virginia voucher law was filed January 19. Details are in the January 19, Public Funds Public Schools press release.

HB290, Ohio's version of universal vouchers is pending in the Ohio legislature. When the sponsors of HB290 rolled it out, they crowed about the West Virginia voucher example. Possible the court challenge in WV will give Ohio legislators pause.
