

Americans for Prosperity (Funded by the Koch Family) is Lobbying Boards of Education to Remove Their Districts from the EdChoice Voucher Litigation

The libertarian, anti-public school, Koch funded Americans for Prosperity is opposed to public education. The Kochs have pushed an agenda to eliminate government spending on public education for years. Boards of Education that are approached by the Americans for Prosperity disciples should understand the goal of that organization is to eliminate public education. The disciples of that organization may not realize that this is the goal of the organization they represent.
