

Attorney General Yost Seeks a Court Order to Prevent the ECOT Man (William Lager) From Disposing of or Transferring Assets or Property. FREEZE LAGER'S ASSETS!

William Lager, via his operation of ECOT, Altair Learning Management, IQ Innovations, and Third Wave Communications illegally collected hundreds of millions from the state (school districts). The state has been attempting to recover at least part of the stolen revenue via the judiciary. Lager has put portions of his assets beyond the reach of his creditors.

The Ohio Attorney General, on September 27 filed a [motion](#) in Franklin County Common Pleas Court to freeze Lager's assets.

Previously, the Court had identified that Lager had personally benefitted in the amount of \$46,614,198.83. The Court had also specified that ECOT illegally paid Lager's companies \$161,602,806.30

It is amazing that Lager was empowered by campaign contributions to steal hundreds of millions of tax dollars over a couple decades before getting caught. A lot of state agencies—Ohio Department of Education, State Board of Education, Governor's office, Attorney General offices, Auditor offices—were asleep at the switch, while enjoying favors from Lager. AMAZING!
