

Dual Tasks Required to Perfect a Constitutional System of Education in Ohio

The Cupp/Patterson Fair School Funding legislation, when fully funded, will put Ohio's school funding system in the sphere of constitutionality; however, the elephant in the room is that a "constitutional fix" of school funding could come at the expense of a universal voucher program—which, of course, would be a disaster. The public school community together with all other citizens that cherish the public good and democracy must coalesce in a formidable block to resist the privatizers.

Fight for Cupp-Patterson in the legislature and resist privatization in the judiciary.
