**New Speaker of the House has a Challenge in Dealing with a Pack of 45 Fellow Republicans Who are Bent on Pushing Universal Vouchers.**

The Ohio House group of 45 House Republicans is plotting to outmaneuver the Speaker of the House. According to news reports, this caucus of 45 is bent on making every K-12 student eligible for an EdChoice voucher. They want to reduce the traditional power of the Speaker to accomplish their agenda.

This pack of 45 will be allied with the Senate in their quest to privatize the public education system. It is time for the public education community and advocates to draw a line in the sand and fight this existential threat to public schools. Enough!
