Coalition/Vouchers Hurt Ohio has a presence at the Ohio State Fair

The Coalition/Vouchers Hurt Ohio has a booth in aisle 4000 in the Bricker building marketplace. Those staffing the booth are providing the facts about how the voucher system is already hurting the public common school system.

A cross-section of Ohio's population attends the Fair. Folks from all walks of life are expressing concerns about vouchers to those staffing the booth.

State officials should allow voters to determine if their tax money should fund private schools via vouchers.
