State Senator Bill DeMora: Should state allocate even more public funds for unregulated private schools? O-H-I-NO

State Senator Bill DeMora, in a Guest Column in the Columbus Dispatch, calls public attention to the January 16 Buckeye Institute [policy brief](#) that proposes a tax-supported facilities program for private schools and the privately-operated charter school industry.

Since the Buckeye Institute is recommending a tax-funded program to build buildings for private schools, it is a safe bet that the Ohio Senate will include this feature in either HB2 or the Capital Improvements Bill. Where is the outrage?
