

**The universal EdChoice voucher anti-public-school CAUCUS in the Ohio General Assembly has shifted tax money to the wealthy to subsidize their private school tuition payments.**

Ohioans are becoming aware that their tax money is being funneled to wealthy folks to subsidize the tuition they pay to private schools. Most of the newly funded vouchers are being used by students that were already enrolled in private school, most of which were never enrolled in public schools.

The voucher CAUCUS organized and led primarily by the president of the Ohio Senate argue that Ohioans are entitled to school choice. The voucher scheme in Ohio is not about choice. It is about welfare for the wealthy. Even with vouchers, lower income folks cannot afford the increasing private school tuition rates. Voucher zealots talk about choice (privatization) because it sounds good. The Ohio reality is that the universal voucher scheme is welfare for the wealthy.
