

Message from the folks who visit the Coalition's booth at the State Fair: The state's EdChoice voucher project is wrongheaded.

Most folks are not tuned into the legal nuances of the constitutional issues of the EdChoice voucher unconstitutional system, but they just know it is inherently ethically and morally wrong. From a legal standpoint, the Franklin County Common Pleas Court determined that the scheme is unconstitutional. Politicians who support EdChoice vouchers will eventually learn that a significant majority of Ohioans adamantly oppose EdChoice vouchers.
